

THE CHAMPION CHRONICLE

VOLUME 7

CHAMPION, (Alberta) THURSDAY, NOV. 12, 1925

NUMBER 24

J. T. Stephenson

Phone 7 **GROECER** Phone 7

We have just opened up a shipment of

**Fancy Hand-Painted
Nippon China**

Make your selection while the assortment is complete

**Southern Alberta is now
producing sugar.**

Use this and help boost
our own province.

Shipment in this week.

NYAL

CREOPHOS

**HYPHOPHOSPHITES, WILD CHERRY
AND CREOSOTE**

Combined with the true medicinal Extractives
found in the Best Cod Liver Oil.

Particularly valuable in Run-down Conditions
showing loss of flesh and a tendency to weak
lungs.

A most effective remedy for Bronchitis, Deep
Seated Stubborn Coughs, and wherever a gen-
eral Tonic and Tissue Builder is required.

CHAMPION DRUG CO.

Druggists and Chemists.

Thrashing operations have
progressed steadily this week
and the end is approaching
rapidly. While the grain
threshed much better in the
past few days it still graded
tough. To the east of town
very little threshing is left but
to the west there is still several
days' work for the machines
working there.

Some fifteen people from
here attended "Vanity Fair" at
Carmangay on Tuesday evening.
Messrs. Campbell, Hoskins,
Moffatt and Henderson taking
part in the programme.

Miss Kathleen Watkins who
is attending school at Calgary
spent Thanksgiving at her
home here.

Annual Meeting Curling Club

The annual meeting of the
Champion Curling Club will be
held in W. C. Hoskins' store on
Tuesday evening, November
17th. The business to be trans-
acted will be the election of
officers for the ensuing year
and such other matters as may
come before the meeting.

A decision as to the club's
attitude as to whether it will
undertake the operation of the
rink this year provided con-
ditions are satisfactory will be
the big item to be discussed and
everyone interested is urged to
be present. The rink is the
most important utility we have
in Champion and as the curlers
represent the bulk of the tax
payers and also most of those
interested in providing winter
recreation for old and young,
their action in this matter is
important. The rink is in good
shape this year for the begin-
ning of flooding operations and
a healthy interest on the part
of those concerned in its opera-
tion will insure a successful
season.

The O. E. S. entertained at
the home of Mr. and Mrs. W. C.
Hoskins on Friday evening in
honor of Mrs. H. E. Gill. A
jolly evening was spent in
games and cards, a dainty lunch
was served, after a beautiful
pursue was presented to Mrs.
Gill by the O. E. S. Mrs. C.
Williamson made the presenta-
tion.

A potato has come to our
hands grown by August Flimmo,
of Bow Island. While remark-
able for its size, its practically
perfect shape and smoothness
are even more outstanding.
The only thing hard to under-
stand from here is that with
such excellent judgment in
potatoes Mr. Flimmo is still an
adherent of the U. F. A. political
group.

Mrs. J. T. Stephenson left for
Victoria on Tuesday where she
will visit her mother, and the
latter will return with her for
the winter.

Big Auction Sale Tuesday, Nov. 17

Bills are out announcing an
auction sale on Nov. 17th of the
entire farm stock, implements
and household effects of W. S.
Gorsche, who has rented his
farm and is moving to Van-
couver. This sale will naturally
rouse interest throughout the
district as some splendid farm
stock is included in the big list
published. See advt. in this
issue.

Ladies' Aid Bazaar Coming

The Ladies' Aid wish to re-
mind those interested of the
Bazaar to be held in the
Hoskins' and Stephenson stores
on Saturday, Nov. 28th. A
particular request is made for
donations to the home produce
table, including garden and
farm produce of every kind.
Present indications are for a
really successful event and the
end to be achieved is so laud-
able the public should help out
to the greatest possible extent
both in the way of contribu-
tions and purchases.

The Junior hockey boys
realized \$85.00 on the picture
"Zeusbrugs," the proceeds of
which were donated by the
Champion Theatre manage-
ment. This is a magnificent
start and if the public at large
show as much interest in the
team as Messrs. Campbell and
Moffatt have evidenced hockey
should go with a bang here this
winter.

Messrs. Lee and Maritase, of
the Savoy Cafe, returned on
Saturday from a trip up the
Crows Nest Pass as far as
Coleman and south to Car-
leton. They report some lively
towns were visited on their trip.

Mrs. P. Fritzer returned
from the Holy Cross hospital
on Sunday, convalescent after
an operation.

Chautauqua Nov. 18-21.

CAMPBELL'S "Where They All Go."

**Friday @ Saturday
Nov. 13-14**

Jack London's "ADVENTURE"

**Friday @ Saturday
Nov. 13-14**

Is Stirring Action Tale, Rich in Drama, Thrills and Love Appeal. Adventure—romance and red-blooded action under a blazing, torrid sun out on a savage South Sea isle. Avigorous and refresh-
ing story, of just what the title says—Adventure! The glorious fight of a courageous girl against ruthless Nature, mad-hunting savages and unscrupulous white men. A thrill crowded drama
that tears away the fiction halo from the South Sea islands and reveals them as a terrible land of enchanted horror.

Coming Friday and Saturday, November 27-28, "Abraham Lincoln."

Commercial rates on application.

THURSDAY, NOV. 12, 1923

Curtailed Expenditure the Big Essential.

That there must be some drastic movement towards a general curtailment of public expenditure throughout this Dominion is being more definitely impressed upon the people year by year as our taxation continues to increase to meet the demands of a growing national debt. The distortion of ideas regarding the value of money caused by the war is the only reason that can be given for the quiescent attitude towards continued excessive expenditures by dominion and provincial governments and municipal bodies. Referring to the fact that the United States had curtailed expenditures successfully during the past few years, the Royal Bank monthly letter says:

"During the years of prosperity which permitted this successful reduction in the United States, Canada has been suffering from a prolonged depression which has made it impossible to reduce the Canadian debt. We find ourselves, seven years after the end of the war, with a national debt of 23 billion dollars. The load of national, provincial and local taxation has continued to grow until we are now faced by the necessity for a national policy of retrenchment. So long as each part of the country interests itself only in savings which might be affected in some other district, no great economies could be secured, but now the necessity for governmental economy has become a matter of such outstanding importance that a balanced budget must cease to be a party issue, and the time is ripe for all Canadians to unite in a decisive effort to reduce expenditure. Men representative of leading industries and business from all parts of Canada have expressed themselves as feeling that this is the paramount issue before the country today. Agriculture, industry and commerce have experienced prolonged cost and discouraging depression, and are now ready for a season of recovery. It is exceedingly important that recovery should be given the added stimulus which comes from reduced taxation."

How often on election day or before it was the necessity of economy and the lowering of taxation urged as the prime necessity at the present time. It is easy to talk about keeping people at home by applying tariff remedies but the real necessity is the lowering of taxation which bears heavily on the agricultural population.

NOTES AND COMMENT.

While the weather has improved decidedly of late the constantly recurring cloudy weather is remarkable at this time of year in this province. There is mighty little talk about "Sunny Alberta" heard these days. Once in a while we still get one of the old time sunny days, however.

The curling and skating season is again at hand and preparations in this connection must be made. The village council is advertising for tenders for the operation of the rink and as the curling club are possible lessees a meeting of this organization is called for Tuesday evening next in order that there need be no delay should the club decide to take hold of the rink this year.

Local and General

Argentina proposes to rejoin the League of Nations.

Northern lights were unusually brilliant on Monday night.

Japan has more than 300 quakes at varying degrees this year.

Louis Thompson spent Thanksgiving in Calgary with relatives.

Mr. and Mrs. A. S. Roberts, of Barons, were visitors in town on Thanksgiving Day.

Chinese robbers are publicly executed in Shanghai after a parade of the condemned.

Mr. and Mrs. St. Peter and Saint Jopling, of Milo, were visitors in town over the week end.

Wheat deliveries have been heavy for the past week, solid roads assisting in the movement.

The Calgary Winter Poultry Show will be held on December 8, 9, 10 and 11. Entries close Nov. 28th.

It is stated that Gen. Stewart will not be a candidate in Lethbridge in the coming Dominion elections.

L. H. Jolliffe, member elect for Lethbridge, is mentioned as a Cabinet possibility in the new government.

B. M. Roberts has been slightly under the weather during the week but has improved considerably.

Moscow has 314 theatres, clubs and motion picture theatres, providing accommodation for 75,000 persons.

Several threshing outfits have finished their work for the season and many more will be through this week.

The new poultry and egg pool began operations on Monday. The coarse grains pool has been abandoned for this year.

It is now stated that parliament will meet about Jan. 1st, this being the earliest date possible under the circumstances.

A number from Champion drove to the Turner Valley oil field on Monday. They found everything lively there and the Vulcan well down 3,150 feet.

The last relic of Halloween was removed from main street on Tuesday morning. The job of cleaning up was much lighter and less expensive than a year ago.

It is stated that Hon. MacKenzie-King will not seek reelection before the house meets and that Hon. E. Lapointe will be house leader when parliament opens.

Misses Helen and Florence Woodhull are convalescent after having their tonsils removed on Saturday last. Dr. Frenze performed the operation, assisted by Dr. Carson, of Vulcan.

An analysis of the cost of the proposed municipal hospital was promised for this week but failure to secure some necessary information in time for this issue forces a delay in this matter.

C. M. Granlin turned threshers this week and reports indicate that he has forgotten none of his old ability in this line, taking charge of both engine and separator on the Granlin Bros. outfit.

The Lethbridge corn show, which is the first corn show on a large scale to be held in Alberta, takes place November 11 and 12, with a considerable number of entries. The acreage in corn in the province this year, is estimated at 73,700 acres, chiefly in Southern Alberta. This is compared with 67,000 acres last year, and 53,000 acres the year previous.

To Newspaper Subscribers

When ordering your newspapers or magazines bear in mind that A. H. Keatman can secure these for you, without any additional cost to you. He can also secure you any magazine published in America, saving you the cost and trouble of making a remittance. He specializes in the Curtis publications, viz.—The Saturday Evening Post at \$2.00 per year, The Country Gentleman, three years for \$1.00 and The Ladies Home Journal at \$1.00 per year.

Herman Christensen, official executor of Denmark, has been dismissed from service after holding the job 20 years without working. During his two decades in office he has never been called upon to execute the death sentence.

Inhabitants of New Zealand reach a higher standard of health than the people of any other part of the world.

After many months of secret preparation, the biggest prohibition campaign yet attempted in Great Britain is about to be launched.

VILLAGE OF CHAMPION

TAX RECOVERY ACT

Under the provisions of the above Act, a Cavenet will be placed on November 14, 1923 against all lands in the Village of Champion, the Village and school taxes of which are unpaid to December 31, 1921.

Please pay all arrears to the secretary of the village before the above date and avoid Cavenet costs.

By Order,
THE COUNCIL OF THE VILLAGE OF CHAMPION.

Do You Ever Stop and Think?

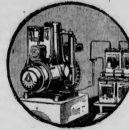

Just a few years ago an automobile was a marvellous machine. We'd go miles to look one over. The idle rich even considered it a luxury.

The Telephone gave you a creepy feeling when you used it. The old kerosene lamp certainly put the candle out of business. Today these are necessities and almost every home has its car, telephone and gasoline lamp.

Times Have Changed!

To keep the young people at home a farm has got to be up to date.

You can now have city conveniences on the farm at reasonable prices.

DELCO LIGHT will light your home and outbuildings.

DELCO LIGHT reduces the danger of fire.

DELCO WATER SYSTEMS keep up the pressure automatically and will give you all the up-to-date service of the city water system.

The Delco can be used on shallow or deep wells.

W. C. HOSKINS

Guaranteed Hardware.

billiards

promotes good fellowship
A feeling of cordial fellowship always pervades every well conducted billiard room. Indeed, every billiard table in a properly managed recreation center fairly radiates sociability and good fellowship.

Give billiards a trial on our tables. Meet more men. Broaden your field of opportunity. You will be impressed with the excellence of the equipment we have provided for the enjoyment of this fascinating game. You also will feel right at home when you sense the atmosphere of wholesomeness and refinement that always is so evident in this recreation center.

THOSE "COFFEE" is good coffee

The Political Situation

The result of the general Dominion elections held on October 29 is not a good thing for Canada. It creates a new House of Commons in which one political group commands a majority and consequently a situation is brought about where it is impossible to have a government capable of making its policies into effect and give the country effective and efficient administration.

A majority of the constituencies rejected the policies of the King Government, but, while disapproval of the government and its policies was thus formalized, neither did majority of the constituencies express approval and support to the leadership and policies of the Conservative Opposition, in such even more emphatic way the country as a whole rejected the Progress Party.

A coalition of "statism," a deadlock, ensues, which apparently it will require another appeal to the electorate to break. In other words, for the time being at least, there must be a "marking of time," a period of drifting, which is an extremely bad thing for any country, and especially so for a young country like Canada with a number of serious national problems demanding vigorous and constructive action.

Comment by "the man in the street" is, of course, largely colored by his party affiliations but all too frequently an accurate barometer of the constitutional position of affairs is disclosed. Without in any way touching on the party aspect of the situation, it may be well to clarify the constitutional position.

If the Government of the day is clearly defined in a general election, the practice both in Great Britain and in Canada is for that Government to immediately resign, and for the Premier to advise the Governor-General to call on the leader of the Opposition party to form a new Government. That a defeated Government is not obliged to take this action; it can continue in office and meet Parliament and is not obliged to resign until it suffers defeat in the House of Commons. That is to say, the tenure of office by any Government rests with the House of Commons.

But, if following a decisive defeat in a general election, the Government did not resign the Governor-General can take confidence of that defeat and take responsibility for dissolving the Ministry and calling upon the leader of the Opposition to form a new Administration. In this event the new Ministry must obtain a vote of confidence from Parliament otherwise the usefulness of the Governor-General is lost.

However, in the election of last month, while the Government failed to secure a majority, so, too, did the Opposition. Consequently the Government would be justified in continuing in office and asking Parliament for a vote of confidence, relying on a combination of Liberals and Progressives to reach such a vote. If, on the other hand, the Government resigns and Mr. Meighen is asked to form a Government, it is quite evident he could not command a majority in the House of Commons as at present constituted, and another election would become immediately imperative.

Mr. King is, however, confronted with a second problem. If he decides to advise a verdict from Parliament, he must take into view his personal desire and the desire of one-half of the cabinet to resign, and possibly before this is a series of by-elections. In the present indecisive state of public opinion it is doubtful if these ministers could be elected.

Furthermore, for the King Government to continue in office any length of time under present conditions, would be to perpetuate the unsatisfactory situation in the House of Commons and Government which Mr. King himself in advising dissolution of Parliament, urged as one outstanding reason why an election at this time was necessary, namely, to provide a Government with a clear mandate and a working majority. Mr. King further announced that if the election did not result in providing such a clear working majority he would resign upon the election.

Distasteful and expensive though it would be, the logic of the situation points to another election without loss of time. Whether Mr. King remains in office, re-constructs his cabinet, and calls that election, or whether he resigns and Mr. Meighen forms a cabinet and then goes to the election, is a matter for Mr. King and his advisers to decide, and possibly before this article is published a decision will have been made. But as in any event it is quite evident that the holding of another election cannot long be deferred—and in the interests of strong government in Canada should not be deferred—then the sooner it is held and the whole situation clarified, the better for Canada.

New Journalistic Venture

A new venture in journalism has appeared in Ottawa in the publication of the Jewish Review, a weekly periodical emphasizing the needs of Jewish immigrants. It contains concise world dispatches pertaining to Jewish activities, short and timely editorial articles, interesting stories, and features of the race, as well as other topics of the day.

Settlers From Sunny Italy

It is reported that banking interests in Northern Italy are negotiating for the purchase of forty thousand acres of farm land in Manitoba, on which it is planned to settle five hundred families of Italian agriculturists. If the deal is consummated, it is planned to bring the vanguard of settlers next spring.

Exploration Chat In Far North

The Canada Gazette announces the appointment of G. P. MacKenzie to the position of exploration and development officer of the Canadian government in the North West Territories and Yukon-British Columbia, department of Interior. Mr. MacKenzie was in command of the Arctic expedition last year, and returned from the north a few weeks ago.

Manitoba Dairy Industry

The growth of the dairy industry in Manitoba is well illustrated by a comparison of the figures of production in 1900 and 1925. In 1900, the total value of dairy products produced in Manitoba was \$1,681,205. In 1925 it was \$12,923,262. Last year, 1926, cattle of the province were exported from Manitoba totalling \$4,255,200 pounds.

CHILDREN TRY FOR

Fletcher's CASTOR OIL

MOTHER—Fletcher's Castor Oil is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Dr. H. C. Fletcher. Prescribed by Physicians everywhere recommended by.

Canadians Win At Fruit Show

Awarded Several Prizes At Exhibition In London, England

For the third year in succession, Canada has won prestige honors at the Imperial Fruit Show at London, England. First, second and third prizes for dessert apples went to the Associated Growers of British Columbia, Limited, Vernon, B.C., with Jonathan, McIntosh and Winesap apples.

The Ontario Fruit Growers' Association took first prize in cooking apples with Greenings; second and third going to the Associated Growers of British Columbia, Limited.

Only first prize in the overseas section was won by the Associated Growers of British Columbia, Limited.

BEAUTIFY IT WITH

Each 15-cent package contains dyes for coloring permanent colors in lingerie, ribbons, dresses, waists, sweaters, coverings, hangings, etc.

Buy Diamond Dyes—no other kind—will color your fabric, silk, or woolen in any color of your choice.

Railway Safety Device

Radio-Controlled Attachment May Greatly Lessen Danger of Accidents

A radio-operated device that checks speeding locomotives automatically when danger looms ahead was given a successful demonstration over a 10-mile stretch of near Marquette Railroad track recently. The test was in the presence of officials of the Federal Railroad Administration and Thomas E. Clark, of Detroit, inventor of the device.

Following the demonstration, railroad officials said they believed the invention, if generally adopted, would result in the saving of thousands of lives by preventing railroad accidents and millions of dollars in equipment destroyed in wrecks.

By means of a system of radio-controlled signals, they believed the engine car, it was demonstrated that the engine can be forewarned of impending danger, asking it to slow down or stop before it reaches the danger point. Should the engine be disabled or dead, the system of control can be used to stop and bring it to a halt at any danger point, at any time.

World Wheat Production

Higher Than 1924 and the Five-Year Average But Less Than in 1923

Estimated wheat production of wheat in 31 countries of the world this year totals 2,834,547,000 bushels. This is 197,500,000 bushels more than the production of 1924 in these countries, and it is 114,100,000 bushels greater than the average annual production for the five years 1919 to 1923. These figures are compiled by the Dominion bureau of statistics from official data.

For the same 31 countries, the production of wheat in the abundant year of 1923, was 2,993,217,000; so that while the production of 1925 is superior to that of 1924, and also is that of the five-year average, it is still less than the production of wheat in the 1923 crop.

The figures include all the important wheat-producing countries of the northern hemisphere, excepting the Soviet republics. A number of smaller countries have not yet reported, but their total wheat production would not exceed 55 million bushels.

When hoarse use Minard's Liniment

First Warning For Christmas Mail

The British post office has issued a warning that all persons who wish to send Christmas presents to the Old Country should mail them long in advance of the holiday. The warning is to avoid delay of packages similar to that which occurred last year owing to the great congestion in the mail.

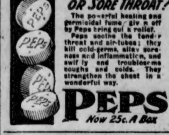

German scientists have made leaves of gold and nickel so thin that it would require 2,500,000 of them to measure an inch in thickness.

United States distributed its first issue of stamps in 1849.

New York policemen are fined one day's pay for cursing out citizens.

Got A Cold OR SORE THROAT?

Indian Boy Becomes An Operatic Star

Member of Mohawk Tribe Has Achieved Artistic Fame

Two years ago an Indian lad, selling the baskets of his handicraft at Lake of the Nations in the Highlands of Ontario, attracted the attention of a gifted Toronto composer by his voice. And now Os-Ke-Nor-Ton (Rustling Deer) has passed through Toronto after a holiday spent at Lake of the Nations on his way back to New York, with before him another successful season on the concert platform in the United States, where he has already achieved artistic fame, for in London last season he sang the part of the Medicine Man in the grand opera production of Hiawatha, and was made much of by royalty and society.

Os-Ke-Nor-Ton, this first of his race to become an operatic star, was born on the banks of the St. Lawrence in Quebec, member of the Bear clan of the Mohawk tribe of the great Iroquois nation, and so is cousin to Pauline Johnson, the gifted Indian poet, whose short life did much to enrich Canadian literature. And of this same Mohawk tribe sprang two other Indians, each famous in his day. Dr. Bronckhorst, educator and statesman, and founder of a great benevolent institution, and Tom Longboat, the Indian athlete, who for a while swept all before him on the cinder track.

WHY RHEUMATISM OFTEN COMES BACK

The Usual Treatment Does Not Reach the Root of the Trouble

Most treatments for rheumatism do no more than aim to keep down the poison in the blood and enable nature to overcome this particular attack. When the system becomes run-down, the poison returns, and the sufferer gets the upper hand and it all has to be done over.

Sufferers from rheumatism who have found their condition unrelieved by the usual treatment, should try Dr. Williams' Pink Pills. The tonic treatment with this medicine has proved in thousands of cases that it builds up the blood and restores the system. It is not so much the rheumatism, the bowels, kidneys and the skin. When this is done rheumatism is banished, and as long as the blood is kept pure and rich the patient will be immune from attack. This is fully proved by the case of Mr. Samuel Zink, Cigar Manufacturer, N.S., who says: "For a long time I was a great sufferer from rheumatism which so often in my mind and down by leg to my knee. At times the pain was so great that I could not get up from my bed. I tried many medicines but without getting more than temporary relief. One day a friend called who said that he had been afflicted with this trouble which was banished by Dr. Williams' Pink Pills, and urged me to try them. I did at advised and after using a few boxes there was no doubt the rheumatism disappearing, but my general health was improving. I composed the pills until I had taken about a dozen boxes when every trace of the trouble had disappeared, and I have not felt a twinge of it since. I may add that my wife used these pills for a run-down condition with equally good results."

You can get these pills from any drug store or by mail at 50¢ per box from The Dr. Williams' Medicine Co., Brockville, Ont.

Older Mariner of Pacific

Captain George Marchand, said to be the oldest mariner on the Pacific coast, died at Vancouver recently aged 82 years. He came to this country from England as a sailing vessel in 1847. Later he became skipper of the Beaver, the first steamboat to ply on the Pacific Ocean, and was in command of that vessel when it ran ashore in English Bay of Stanley Park and became a wreck in 1852. He also piloted the first steamship ever to enter False Creek here.

COLDS

At the first sneeze, heat and inflame Minard's. Also rub on throat and chest.

MINARD'S "KING OF PAIN" REMEDY

German scientists have made leaves of gold and nickel so thin that it would require 2,500,000 of them to measure an inch in thickness.

United States distributed its first issue of stamps in 1849.

New York policemen are fined one day's pay for cursing out citizens.

SUNDAY SCHOOL LESSON

NOVEMBER 15

PAUL'S ARREST IN JERUSALEM

Golden Text: If a man suffer as a Christian, let him not be ashamed. 1 Peter 4:15.
Lesson: Acts 21:17 to 23:9.
Devotional Reading: Psalm 125:1-5.

The Text Explained and Illumined
Paul's Report to the Church at Jerusalem, verses 17-19. Paul came to Jerusalem with a wonderful story of how the gospel message had been received among the Grecian Jews and Gentiles, and with abundant proof of their regard for the mother church, in the collection which they had contributed out of their deep poverty. The leaders of the church at Jerusalem received Paul cordially, and after his recital they glorified God. Let's remember, however, makes no mention of their glorification for the help of the Gentile Christians. Apparently they waited at once to what was unimportant in their own minds.

The least that one can do to show that he is grateful is to say so. Gratitude is one of the cardinal virtues. We should be scrupulously careful to thank everyone who does anything for us, but, on the other hand, we should be as scrupulously indifferent for those for whom we do anything. It is a good rule to say "thank you" on any other basis would be a miserable affair. It is a miserable fault to be grateful but it is not if it is not given," declared Seneca.

Famous Watchdog Dead

Was Famous Figure Among Geneva Headquarters of League of Nations

Bristol, the famous St. Bernard dog, the mascot of the League of Nations headquarters at Geneva, is dead. He was washed specially for the sixth assembly, and it is thought he must have been killed by a car. The dog was suffering pain, and a dose of opium was injected, death taking place some time later. Before he died the name is not known—was about 15 years old, and originally belonged to an Italian count, who was a resident of the Hotel National here. He was taken over by the league. The St. Bernard had been a watchdog since the foundation of the league, and was probably the most faithful friend there. All day the delegates at the assembly, and many others, were hunting as he went round the premises. He was known and loved by everyone. Bristol, he was buried in a grave in the front garden of the Palais des Nations.

More Home For the Child

Interested Parents Can Do More For the Child Than Any One Else

Today the parents of Canada hand over their children to the schools and expect the schools to do everything but buy their clothes. Special teachers sound out their little brains; special doctors poke into their little teeth; other doctors inject their little livers; Sunday school teachers are expected to smudge their little souls into Heaven. It is all very new and efficient. But it does not take the place of the home. One pair of genuinely interested parents can do more for their child than all the specialists on earth, including Sunday.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Expeller will clear the stomach and restore restfulness.

Once Restored Gentile

When (lost) people were first introduced into England from France and Italy they were called "Gentiles" because of a mark of gentility. To show themselves possessed of such an instrument men of fashion wore them in their hats.

Homebreds In Alberta

A first class 71 homebreds were died on during the month of September in the Edmonton land district which includes a large territory in Central and Northern Alberta. In addition to this, 11 soldier grubs were often killed.

Whales Often Migrate

Whales, it is believed, often pass from Antarctic to Arctic waters and a British expedition now in the southern sea was attempting to label a few of the animals in the hope of solving the problem of their migratory habits.

PREMIER KING DECIDES TO MEET PARLIAMENT

Ottawa.—It is officially announced that Premier King will meet parliament. The House of Commons will be called on the evening of October 29, after the statement read by the prime minister. "After careful consideration of the constitutional precedents and their bearing upon the situation which has arisen as a result of the general election, the cabinet decided unanimously that it is their constitutional duty to meet parliament at the earliest possible moment, regard being had for the legal requirements with respect to the time necessary for the return of the writs and the official meeting of members who have been elected."

"The latest official returns having been received, it is decided that the general election held on October 29, no one of the participating political parties will, of itself, have a clear majority in the House of Commons when parliament assembles, it became my duty as prime minister to acquaint His Excellency the Governor-General with the situation and to advise His Excellency as to the course which should be pursued. After several interviews with His Excellency at which the position brought about by the recent general election was fully discussed and all alternatives presented, His Excellency has decided upon advising His Excellency to summon parliament for the earliest practicable date in order to ascertain the attitude of the parliament towards the very important question raised by the numerical position of the respective political parties. His Excellency has been pleased to accept this advice."

"In the interval until parliament assembles, it is the intention of the government to refrain from making appointments beyond those which are essential for the proper carrying on of the public business."

"In the present situation, there are three possible courses of procedure, each of which has been carefully considered by the cabinet and His Excellency."

(1) That His Excellency be asked to grant an immediate dissolution of parliament."

(2) That His Excellency be asked to call upon the leader of the largest political group to form a government."

(3) That His Excellency be asked to summon parliament at the earliest practicable date for the purpose aforementioned."

"With respect to an immediate dissolution, it was felt that it was not in the interests of the country to occasion the turmoil and expense of another general election until a later parliament had been afforded an opportunity of giving expression to their views."

Alaskan Volcanoes Active

Five Peaks Are Belching Great Clouds Of Smoke

Seattle, Wash.—The entire Alaskan coast, of the United States, is being visited by the greatest volcanic activity in the Alaskan peninsula and in the Aleutian Islands since Mount Katmai, on the peninsula, erupted 200 miles east from the Aleutians, erupted in 1912.

Five peaks, one of which is Katmai, are belching dense clouds of smoke which hang over the entire in mushroom-shaped haloes.

Prince Thrown In Fox Hunt

Leighton Buzzard, Bedfordshire, Eng.—The Prince of Wales has been fired from his horse and is returning to England from his South African and South American journey. The fall came during an exciting fox hunt when the Prince was thrown and taken an awkward fall. The Prince was unhurt.

B.C. Gains By Seamen's Strike

Vancouver.—Strike of seamen in British port has had the effect of diverting orders of supplies to British Columbia mills. This would not have been possible but for the Canadian Australian Treaty which went into effect on October 1.

Engine Closes Its Own Power

Winnipeg.—After working on its invention for 60 years, John Smith, engineer, of Winnipeg, claims to have perfected a stationary engine capable of controlling and producing its own self-manufactured power. He has a perfect model for demonstration.

Marion Wins In Banquet

Quebec.—According to the latest information from Banquetville County, Hon. Charles Marion has been elected by a majority of 100 votes over his Conservative opponent, Theodore Jaquet.

Says Mining And Agriculture Linked

Deputy Minister of Mines Predicts

Winnipeg.—Taking a long-sighted view and having regard to the ever increasing mineral development with consequent exhaustion in time of the world's supply of minerals, it seems to me that nothing can stop Canada playing a prominent part in the future mineral production of the world, said Charles Connell, I.D., P.R.C., cabinet deputy minister of mines.

Mr. Connell was the principal speaker at the seventh annual winter meeting of the Canadian Institute of Mining and Metallurgy.

Another point stressed by the deputy minister was that the development of the mining industry would inevitably lead to the thorough agricultural development of the country. Dr. Connell reviewed the mineral trade of Canada and declared the world in general looking to Canada's mineral deposits as the last resort of the world. The world's supply of minerals is being depleted, Mr. Connell declared.

Subsidy On Coal Rates Urged

Mining Institute Convention Discusses

Western Coal Trade

Winnipeg.—The enactment and enforcement of an anti-dumping law against foreign coal, a subsidy on coal rates if no other way of freight reduction is found, and the withdrawal of the export duty on all coal, were the main points under discussion at the Mining Institute Convention discussing the Western Coal Trade.

"The Western Coal Trade" was the topic for discussion. Trade Commissioner Howard Stuehr, of Alberta, was among the speakers who strongly favored the anti-dumping law. Mr. Stuehr deplored the looseness of regulations which had allowed the opening up of several hundred miles of the "open road" type.

There were 323 mines in Alberta in 1924, producing only a little more than half of the coal output of the province, the remaining 77 had produced the other 56 per cent. Alberta, he said, is now up with abandoned miles of this type.

Mr. Stuehr believes it would be in the best interests of economy and conservation of the resources of the mines were consolidated.

Not Building To Churchill

Says C.P.R. Has No Intention of

Building Line to Hudson Bay

Winnipeg.—"The company has no intention of building a line to Fort Churchill on the Hudson Bay," declared the president of the Canadian Pacific Railway, when asked of the western line of the Canadian Pacific Railway here, when advised of a report that the C.P.R. planned the building of a branch through The Pas mineral belt.

A local paper carried the report from the Ottawa correspondent and said the "ultimate destination of the line would be Fort Churchill."

"There was," said Mr. Coleman, "a survey made of a proposed Prince Albert to Herb Lake line, but the present line is not contemplated at the present time." Herb Lake is a mining district of Northern Manitoba.

Wives Seek Equality

National Council of Women Want

Equal Standing With Men

Winnipeg.—The National Council of Women here, reported a movement sponsored by the Canadian Council for a law which would establish the "equality" of wife with husband regarding the husband's earning capacity.

The movement to put such a law on the statute books was under way in several Canadian provinces. A similar project is said to be in effect in Sweden for placing the housewife on an economic and legal basis with the bread-winner.

October Sets Cold Record

Ottawa.—The month just passed has been the coldest October recorded in the last 25 years at the Dominion capital.

The cold was in effect in Sweden for the coldest ever in this great country of years, as this is far in the record. The temperature for the month was 35.5 degrees Fahrenheit against the average of 46.6.

Thornhill Sells For England

Montreal.—Sir Henry Thornton, chairman and president of the Canadian National Railway, sailed for New York on the liner Mauretania for a brief visit to England. Sir Henry, who is in London, will deal with matters relating to the Canadian National Railway of the Canadian National system, an official statement said at company headquarters as announced.

Canada's Prestige Abroad Increasing

Great Improvement Noted By President of Labor Congress

Ottawa.—Canada's prestige is not only being maintained but it is being improved both in League of Nations circles and in the International Labor Office at Geneva, in connection with the League," said Tom Storer, president of the Trades and Labor Congress, on his return from a hurried trip to Geneva to attend the quarterly meeting of the governing body of the International Labor Office.

Apart from considerable activity in housing and railroad work, there does not seem to be any relief in the general unemployment situation in Britain," said the Labor leader.

Mr. Storer said he found an active interest among Canadians abroad in the prospects of the general election here. His comment on Canadian papers, or lack of it, in British newspapers, however, was that one might almost have been in a foreign country so far as Canada was concerned.

The only item he saw was quite inconsequential and conveyed little information.

SAYS WEST WILL BE EMBARRASSED IN NEXT HOUSE

Winnipeg.—"The people of the west will probably be the arbiters of power" in the next parliament was the opinion expressed here by Hendrickson, editor of the Winnipeg Free Press, in a speech before the League of Nations and Labor Congress, on his return from a hurried trip to Geneva to attend the quarterly meeting of the governing body of the International Labor Office.

"We are going more and more towards a government by groups. It is more and more clearly seen that the interests of the west will be represented by the country wide representatives who are better than blind prejudice to the west of the west."

"The country wide representatives who are better than blind prejudice to the west of the west."

FREE LEGAL AID IS A NECESSITY FOR THE POOR

Montreal.—Difficulties which confront the poor when in need of legal aid were dealt with in an address delivered by H. Corbett, secretary of the Society for the Protection of Women and Children, before a Montreal conference on social work.

Mr. Corbett took the stand last night stating conditions the poor cannot get adequate justice before the courts, the reason being court fees and costs, which prohibited access to the courts by the poor, court delays and lawyers' fees.

To protect the poor and to save them from oppression, free legal aid was a necessity, held Mr. Corbett. The lawyers' fee was a fundamental principle, he said, and essential to the poor, being unable to pay these sums, were denied justice.

Freedom Of Money Market

British Government To Remove Embargo on Dominion Loans in London

St. John's, Nfld.—The London Chamber of Commerce, in a speech here announced that the government had decided to remove the embargo on the issue of Dominion, colonial and foreign loans in London.

"The old full freedom of the money market will be restored," said the speaker, and the city of London must be responsible for using it wisely and soberly. Over-lending, such as has been the case recently, is straining at future credit, leading to our savings, will bring it all our corrections," he stated.

"We must go as far as possible without impairing the freedom of the market, preference will be given to these issues bringing a high proportion of loans for goods to British trade."

Apple Production In Canada

Statistics Show Value of 1925 Crop on Farm Is \$7,000,000

Ottawa.—An apple, "an apple," an apple, a keeps the country away," said one of the most profitable products of Canada is the apple. It is estimated that the value of the apple crop in 1925 was \$7,000,000.

"An apple, an apple, a keeps the country away," said one of the most profitable products of Canada is the apple. It is estimated that the value of the apple crop in 1925 was \$7,000,000.

Schooner Brought From Arctic By Eskimos

Crew Was Very Proficient and Experienced Proves Successful

Montreal.—Unique in the annals of Arctic exploration is the bringing down from Chesterfield Inlet, bordering on the 64th degree to Liverpool, N.S., a schooner, weighing 2,000 miles, of a northern trading schooner, named by full blooded Eskimos. The schooner, named "The Arctic," was a full trading craft belonging to Neilson Fraser, of Montreal. It was built in 1923 and since then has plied the Arctic waters north and west of Chesterfield Inlet.

To overland the vessel it was necessary to bring it to civilization in St. Lawrence, N.S., in charge of Captain W. H. Robertson, a Newfoundlander, and with C. J. King, Montreal, as engineer, the vessel left on August 1 with a crew of four Eskimos.

The schooner, named "The Arctic," was a full trading craft belonging to Neilson Fraser, of Montreal. It was built in 1923 and since then has plied the Arctic waters north and west of Chesterfield Inlet.

To overland the vessel it was necessary to bring it to civilization in St. Lawrence, N.S., in charge of Captain W. H. Robertson, a Newfoundlander, and with C. J. King, Montreal, as engineer, the vessel left on August 1 with a crew of four Eskimos.

FRANCE TO TAKE STRONG STAND ON DISARMAMENT

London.—Now that treaty is in a fair way for settlement by the League of Nations, the French are taking the lead in preparations for a disarmament conference, which will be held in Geneva under the auspices of the League of Nations early next year. They are impelled in this course by two motives, the principal of which is financial.

The second motive is the growing revolt of young Frenchmen against conscription. The French people are tired of the conscription, authorized by the league to discuss the following points:

1.—A study of all military, economic or other conditions by which the power for war of any country can be determined. This means the French are willing to place a limit on all military forces of any state internationally under the league.

2.—The establishment of a principle of equality of armaments, which would mean that the French are ready to throw into the league nothing but the disarmament of the conscription, authorized by the league to discuss the following points:

3.—The establishment of a principle of equality of armaments, which would mean that the French are ready to throw into the league nothing but the disarmament of the conscription, authorized by the league to discuss the following points:

afternoon and evening, in old Municipal
office.

Alberta Conference United Church

The Organization Session of the Alberta Conference of the United Church of Canada was held in Central United Church, Calgary on November 14-15 and was very successful. From every point of view 275 delegates were present, and almost every part of the province was represented.

The Evangelical Conference Rally was held on Wednesday evening and was very largely attended. The Moderator of the United Church, Rev. Dr. Geo. C. Pidgeon, Toronto, was the principal speaker at this gathering, and was given a very fine reception on rising to speak.

The Conference was constituted on Thursday morning, when Rev. Principal J. M. Miller, D. D. of Edmonton was elected President, and Rev. G. D. Armstrong, B. A., Corvaton, elected Secretary. Mr. Armstrong nominated Rev. J. Lee, Champion and Rev. J. A. Clarton, Medicine Hat, as assistant Secretaries and Rev. C. G. Hocking, Buffalo, as Statistical Secretary and the appointments were duly made.

The Missionary Rally which followed the Conference banquet on Thursday evening had as two of its speakers Missionaries from West China and Formosa.

An item of very great interest was the election on Friday night of 22 commissioners—10 ministers and 10 lay delegates, to the General Conference which will meet in Montreal in May of next year.

There was a very fine fraternal spirit shown by all throughout the Conference, and some augured well for the success of the United Church in Alberta.

In Flanders' Fields

"In Flanders fields the poppies grow
Between the crosses, row on row,
That mark our place, and in the sky
The larks, still bravely singing, fly,
Scattered here amidst the guns below.

We are the dead.

Short days ago we lived, felt dawn,
Saw sunset glow,
Loved and were loved, and now we lie
In Flanders' fields.

Take up our quarrel with the foe,
To you from falling hands,
We throw the torch.

Be yours to hold it high,
If ye break faith with us who die
We shall not sleep, though poppies blow
In Flanders' fields."

(Lt. Col. John McCune of Montreal, whose body lies in Flanders' Fields.)

CHURCH BULLETIN

Rev. J. Lee announces the following services for Sunday next, Nov. 15:

11 a.m.—Sunday School.

7:30 p.m.—Public Worship.

Mr. Lee will preach, and there will be a selection by the choir. All welcome to these services.

An example of how certain types of foreign settlers who come to Alberta are determined that their children shall obtain a complete Canadian education, in order that they may enter fully into Canadian life as properly equipped citizens, is given in the person of Prokop Magera, a settler of many years' standing in the Bon Accord district north of Edmonton. Magera came to the province many years ago, and took up a homestead. He has always had keen ambitions for an education for his family, and as a result to-day he has a son and a daughter attending normal school at Camrose, a son and a daughter attending high school in Edmonton and one son preparing to take the course in Agriculture this term at the Verillion School of Agriculture. In addition to this he financed the son of an old friend of his for his school and college course, and this boy, as a result of the financial aid given him by the little Ruthenian homesteader, was able to complete his education and take an arts master's degree, in one of the eastern universities.

"Age as a Factor in Steer Feeding" is the title of a recent bulletin from the University of Alberta, Edmonton, which should be of interest to cattle feeders in Western Canada. The results are based on three years' trials conducted by the department of animal husbandry with yearlings and two-year old steers. One of the outstanding and, to the farmer, the most practical feature of this report is the fact that in every trial with the yearling and two-year old steers a fair profit in addition to good market prices for the feed was realized. Based on three years' work there was little difference between yearlings and two-year old steers from the standpoint of profit, both showing

a greater return than the calves. Copies of this publication will be available through the Department of Extension, University of Alberta, Edmonton.

Miss Thelma Williamson spent the week end in Calgary visiting friends.

A number from Champion will attend the O. E. S. meeting at Carmangay on Friday evening, the occasion being the official visit of the Grand Worthy Matron, Mrs. J. N. Beaubier, to that Chapter.

Owing to extreme ill health, the Deputy Minister of Municipal Affairs of the provincial government, J. H. Lamb, has retired, and his place has been taken by W. D. Spence, who for some years has been Tax Commissioner.

Thanksgiving Day was decidedly quiet in Champion. Threshing was in progress throughout the district and as the stores were closed there was very little activity on the streets, grain wagons causing most of the stir.

Mrs. J. N. Beaubier, Grand Worthy Matron Order of Eastern Star, will make her official visit to Champion Chapter on Monday evening, Nov. 16th, and preparations are under way to extend a hearty welcome to the head of the order.

The provincial labor bureau for the first ten months of 1925 has placed 11,000 more hands than was placed for the whole 12 months of last year, and 2,000 more than for the whole of 1923. The total placements up to the end of October have been between 57,000 and 58,000. There have been over 32,000 farm placements this year in the 10 months compared with 22,000 last year in 12 months.

A nationwide movement has started in Soviet Russia against hand-shaking. It is believed that this form of greeting is one of the most potent means of spreading disease.

Sidelights on Chautauqua

TOM COPELAND

Of old Scottish stock, and coming of a medical family of no mean ability, Tom Copeland is a genuine Scottish performer, with a rich bass voice, who covers with marked ability the humor and pathos, also the warlike interpretation, from the great album of Scottish songs. He is thought by many to be the all-round Scottish entertainer and character-comedian of to-day.

DR. HOMER B. HULBERT.

After having spent twenty years in Korea, principally in educational work, Dr. Homer B. Hulbert is now bringing us a valuable contribution to our knowledge of Eastern questions. Dr. Hulbert will be the speaker on the afternoon and evening of the third day. His lectures give a great insight into the habits of thought of people of the Far East—Japan, China and Korea. He accounts of the secret treaties and diplomacy which how nations are used as pawns in the great international game—a game in which Dr. Hulbert has taken a personal part—and seem like a tale from the Arabian Nights. These lectures, coming as they do when all thinking minds turn to the problem of the East, will help us to understand better the Oriental type of mind.

THE OLIVIERO FILIPINO QUARTETTE.

We consider it a rare treat for our Canadian audience to hear these four talented, industrious, and accomplished Filipinos in a programme of instrumental music and folk songs. What can compare with the colorful melody and volupitous strains of Filipino music? How they haunt the memory long after the quack instruments and rickety tunes that evoked them have become silent. Every one should hear this popular company render with their own inimitable artistry our favorite plantation melodies, popular songs, and their own compositions.

Constantinople is said to consume more cigarettes than any city in the world. It is reported an average of 3,179 cigarettes are smoked every minute of the day.

A "Missing Persons Bureau" has been established by Scotland Yard, for the purpose of searching for the 38,600 persons who disappear in London every year.
